PRICING GUIDE

## CLIENT TESTIMONIAL

---

"The idea of a branding session really intimidated me. I was having flashbacks to senior photos moments... Michelle was a PERFECT fit for my branding session. She helped my natural personality shine through my photos and helped me capture the look and energy I was going for. She helped talk me through what I was looking for from these photos so that we were both on the same page. I can not wait to keep my brand on point with frequent sessions!! Thank you so much for being the best photographer around!!"

Tanya

# hello there!

---

Hello there! My name is Michelle Hall and my philosophy behind photography is to "be real". I want to have a real connection with my clients, capture real moments and create real memories.

One of my favorite aspects of being a photographer is giving my clients the ability to relive moments. Life is busy! From work, to school and all the activities in between, I want to be able to capture a moment in your life that you can forever look back on.

For a little about me... I'm a married mom of two (my daughter Ava and fur baby Ruby). We are constantly on the go but always make sure to take time to go for walks outside, dance parties in our living room or cuddle up together on the couch.

## *what to expect from your boudoir session*

---

Boudoir photography is one of my absolute favorite types of sessions for several reasons. The first, and most important, is that I get to watch my amazing clients come out of their shells and feel beautiful.

In a day and age where we are always looking for the perfect selfie, a boudoir session is a way to see yourself in a new light. While this is definitely a perfect gift for that special someone in your life, I love it when my clients treat this more as a gift to themselves.

At each boudoir session, whether you prefer the intimate setting with just you or want to bring a few of your best friends, we will have the music cranked and champagne popped!

## *what to expect from your branding session*

---

Branding photography is one of my absolute favorite types of sessions for several reasons. It is a session filled with not just how you want others to perceive you but how you see yourself.

In a day and age where we are always looking for the perfect selfie, a branding session is a way to see yourself in a new light. Let's have fun and be silly, be serious or be a whole lotta sassy. I'll use my knowledge of the perfect angles and encourage a fake laugh or two (or twenty) to capture who you are.

Lastly, don't forget to change it up a bit! You should come to your branding session with multiple outfit changes. The more looks we can fit in, the more options you will have for your social channels and website.

"To live  
would be an  
awfully big  
adventure!"

*Lets do this!*
